DRIVESAFE GUIDELINES AND CRITERIA 2020

BACKGROUND

This program is to assist and help members of Defence Special Needs Support Group Inc (DSNSG) families with ASD and ADHD, to gain confidence and self-esteem when learning to drive (16 years and above).

This program was developed because DSNSG recognised that people with a disability needed specialised training and assistance to gain their driving licence. Having a licence will potentially make job hunting more accessible to these young men and women and in turn help reduce the financial strain of having a special need.

CONTRIBUTION

Members will need to pay a contribution towards the Drive Safe to be eligible for this program. The contribution is equally divided between:

- Defence Community Organisation
- DSNSG contribution
- Family contribution

Once the application has been approved, the letter of acceptance will be sent to the Family with an Invoice detailing the method of payment and the amount of the Family's contribution.
